Building Foundations Program – Construction Services

## ATTENTION PROSPECTIVE OFFERORS:

The United States Government, represented by the U.S. Agency for International Development (USAID)/West Bank and Gaza (WBG), is soliciting proposals from qualified U.S. organizations to provide construction services for projects throughout the West Bank and Gaza. These requirements are described in Section C of this Request for Proposal (RFP), where special attention should be paid to Section L, "Instructions to Offerors" and Section M, "Evaluation Factors for Award."

Prime Offerors under this RFP must be registered under the North American Industry Classification System (NAICS) Code 237990. In addition, Offerors must be eligible in accordance with the authorized geographic code for this procurement which is 937. Geographic code 937 is defined as the United States, the Cooperating Country (Israel, West Bank and Gaza), and developing countries other than advanced developing countries, and excluding prohibited sources.

Contract(s) awarded as a result of this solicitation will be Indefinite Delivery Indefinite Quantity Contracts (IDIQs) with Task Orders funded and awarded individually thereafter. The U.S. Government anticipates two pools of awardees as a result of this solicitation: approximately four to six (4-6) contracts will be awarded based on the results of the unrestricted competition and one (1) additional IDIQ contract award will be reserved for small business. The Agency reserves the right to award more or less awards than the anticipated number of contracts. The maximum combined contract ceiling of these IDIQ awards will be \$500,000,000. Task Orders will be awarded to IDIQ contractors through a competitive, fair opportunity process as described at FAR 16.505. There is no guarantee as to the number of Task Orders that any IDIQ holder will receive. Each successful IDIQ holder will be eligible to compete for Task Orders until the shared ceiling for all contracts is reached.
